

Energy: Worksite Radiation Control Procedures

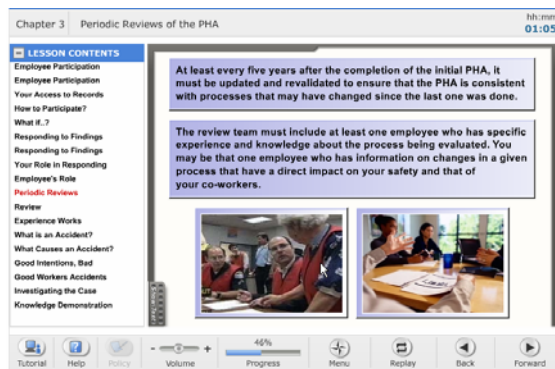

In this industry-specific course, students will learn how to work safely with radioactive materials. This course also addresses specific hazards in the workplace, and where to go to find information on changes and updates in regulatory policy.

Objectives:

- Define radiation and radioactive materials.
- Identify operations which pose a potential for exposure to radiation or radioactive materials.
- Understand the effects of radiation exposure.
- Discuss safety procedures for controlling radiation exposure.
- Understand the general concepts relating to a radiation emergency.

Audience: All employees working with radiation

Primary Regulations: OSHA 29 CFR Part 1910.97 - Nonionizing radiation

Related Regulations: None

Duration: 15-30 minutes

NEW YORK, NEW YORK
646/415-8002

DENVER, COLORADO
303/325-5889

LOS ANGELES, CALIFORNIA
213/291-3072
