

HR: Workplace Violence Control Procedures

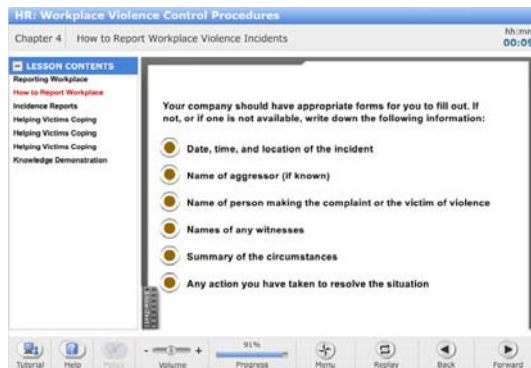

This course is designed to inform the workplace of the second leading cause of fatal occupational injury in the United States. It will inform the worker of the environmental conditions associated with workplace assaults and the control strategies implemented in a number of work settings.

Objectives:

- Identify examples of workplace violence
- Identify potential victims and perpetrators
- Identify violent behavior warning signs
- Identify stages of violent behavior
- Specify intervention options
- Describe how to report workplace violence incidents
- Describe how to help victims cope with workplace violence

Audience: Anyone who works with others or with the public.

Primary Regulations: NIOSH [1992]. Homicide in U.S. workplaces: a strategy for prevention and research. Morgantown, WV: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control, National Institute for Occupational Safety and Health, DHHS (NIOSH) Publication No. 92-103; NIOSH [1993]. NIOSH Alert: request for assistance in preventing homicide in the workplace. Cincinnati, OH: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health, DHHS (NIOSH) Publication No. 93-109; NIOSH [1995]. National Traumatic Occupational Fatalities (NTOF) Surveillance System. Morgantown, WV: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health.
